Face Shield Information

Our face shields are manufactured at our San Francisco Bay Area USA factory using a lightweight, PET 10 mil plastic material to provide complete coverage, including the sides of the face.

The product offers total facial splash protection for workers in the medical field, in essential businesses, government, senior facilities and other settings or personal use.

- Made and fully assembled in the USA
- Double-sided anti-fog and anti-static PET material
- Adjustable size for both men and women
- Reusable cleaned with alcohol
- Protection from spray and splatter
- Transparent visor for maximum visibility
- Lead time is 5-7 working days, on a first come first serve basis
- This material is also recyclable

Disclosure

Corefact has repurposed its business printing manufacturing plant to support the community during this time of crisis. This product is not FDA approved. Please note that due to necessary health and safety precautions, all PPE products including these face shields are final sale and cannot be returned. All shipping is FOB.

About Corefact

Founded in 2005, Corefact is a privately held company providing a range of contemporary print materials ranging from postcards and signage to pop-up cards and face shields using a variety of machines, substrates and die cuts. Corefact has been recognized in the Inc. 5000 for four consecutive years and the San Francisco Business Times Fast 100 for seven consecutive years.
